

Utility Programs

Utility programs are really useful.

In the area above, explain what you understand by the term 'utility program'

A large, empty, light blue arrow-shaped box pointing to the right, intended for a student's definition of 'utility program'.

There are many different types of utility programs.

Below, list some of the main categories and explain what they are used for.

A large, empty, light blue rectangular box intended for a student to list categories of utility programs and their uses.A large, empty, light blue arrow-shaped box pointing to the right, intended for a student's explanation of why to compress a file.

In the left hand section, explain why you might want to compress a large file before emailing it to a friend.

A large, empty, light blue arrow-shaped box pointing to the right, intended for a student's explanation of the process of using a compressed file.

If you received a compressed file, explain the process that you would follow in order to be able to use it properly.
